

AD HOC TRANSPORTATION COMMITTEE
TUESDAY, DECEMBER 17, 2019
MEETING NOTES

MEETING TOPIC

SAFETY and POLICY

Issues: First Aid, vehicle safety, communication devices and communications, (training in general) cameras (forward facing)? Safety related to student behavior

Training Program: CPR, First Aid, Fire Training, Crisis (sub topics under that) coordination between fire, ambulance and PD services with transportation. Students with other health needs. MAPT training (annual) annual requirement that each driver receive at least 16 hours of in-service both behind the wheel training each year. Drivers receive a certificate for the annual training. Safety care training an abbreviated version? For drivers.

Common evacuation processes (in house training) for all drivers in a common process.

Evacuation drills are done at minimum twice per year Fall/Spring.

QUESTION: Could we offer CDL training in house or in partnership with MCST?

For next year we will have a pre k / parent/teacher ride along with bus drivers.

COMMUNICATION DEVICES

VHF Radios communication. All schools have VHF radios that are capable to hit the repeater. Should the vans have VHF radios as well as the buses? Seven radios would need to be installed for vans that transport students.

Safety Decals on transportation vans: could we source these and purchase for every van?

Next meeting: TRANS POLICY REVIEW UPDATE ON RADIO COST AND SAFETY DECAL UPDATE

NEXT MEETING MONDAY, JANUARY 13 at 11 AM at OHS Conference Room.
